

EOL

FREERIDE + FLAT WATER

5.5 | 6.0 | 6.5 | 7.0 | 7.5 | 8.0

PROGRAM

- Freeride "Flat water"

CHARACTERISTICS

- Freeride sail for all kind of flat water boards
- Powerfull and easy in marginal conditions
- Low luft curve allowing fairly low tension on the downhaul
- Rotative 5 battens sail

EQUIPMENT

- Kevlar mast pannel to lock the shape
- Strap tensioner on the outhaul
- Head PVC protection
- PVC batten end protector
- PVC anti-rubbing strip on lower batten pocket
- Velcro scratch on mast protector for easy access
- Triple stainless steel down haul poolies
- Thermoform mast protector

CONSTRUCTION

- Monofilm sail
- Kevlar mast panel

TEAM ADVICE

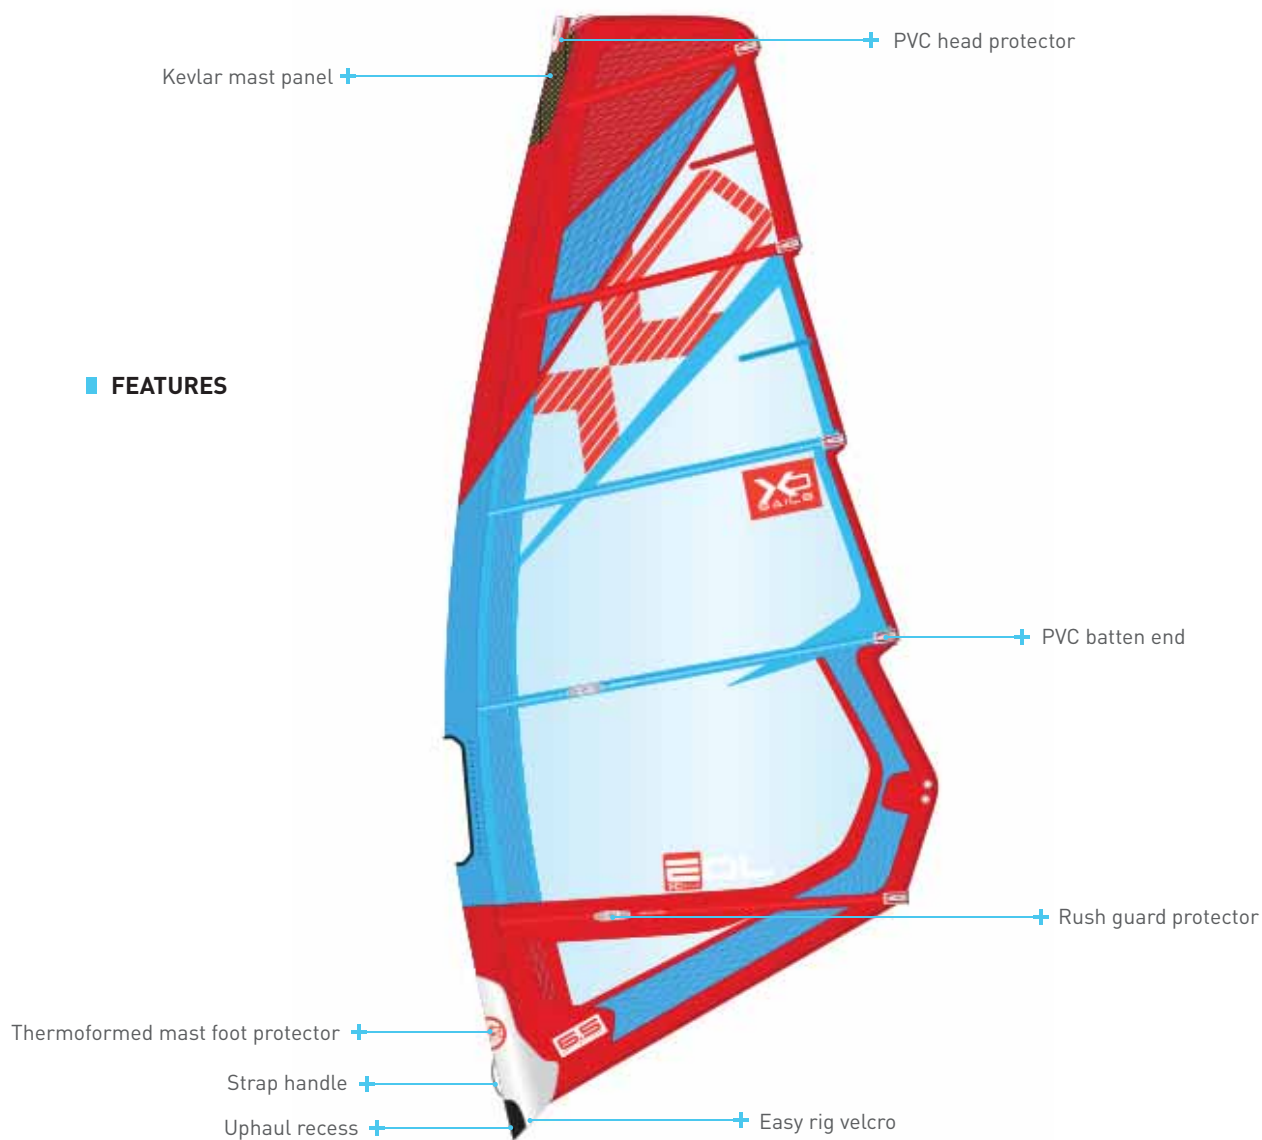

The EOL sails are very light sails, powerfull at low speed, they can be rigged with minimum downhaul to optimize first planning for begginers, ideal an freeride boards but also club and centers
