

GOLD

SLALOM + RACING + FORMULA

4.9 | 5.3 | 5.7 | 6.3 | 7.0 | 7.8 | 8.4 | 9.0

PROGRAM

- Slalom, Slalom Racing & Slalom Formula

CHARACTERISTICS

- Pure racing sails
- Acceleration and top speed
- Low luft curve allowing fairly low tension on the downhaul
- Lower luft curve allows a wide compatibility to all kind of mast
- Carbon tubes and/or Fiber glass => increase control

EQUIPMENT

- Kevlar mast pannel to lock the shape
- Kevlar batten pocket to increase shape control
- Strap tensioner on the outhaul
- Head PVC protection
- PVC batten end protector
- PVC anti-rubbing strip on lower batten pocket
- Velcro scratch on mast protector for easy access
- Triple stainless steel down haul poolies

CONSTRUCTION

- Monofilm sail
- Kevlar mast panel & reinforcement

TEAM ADVICE

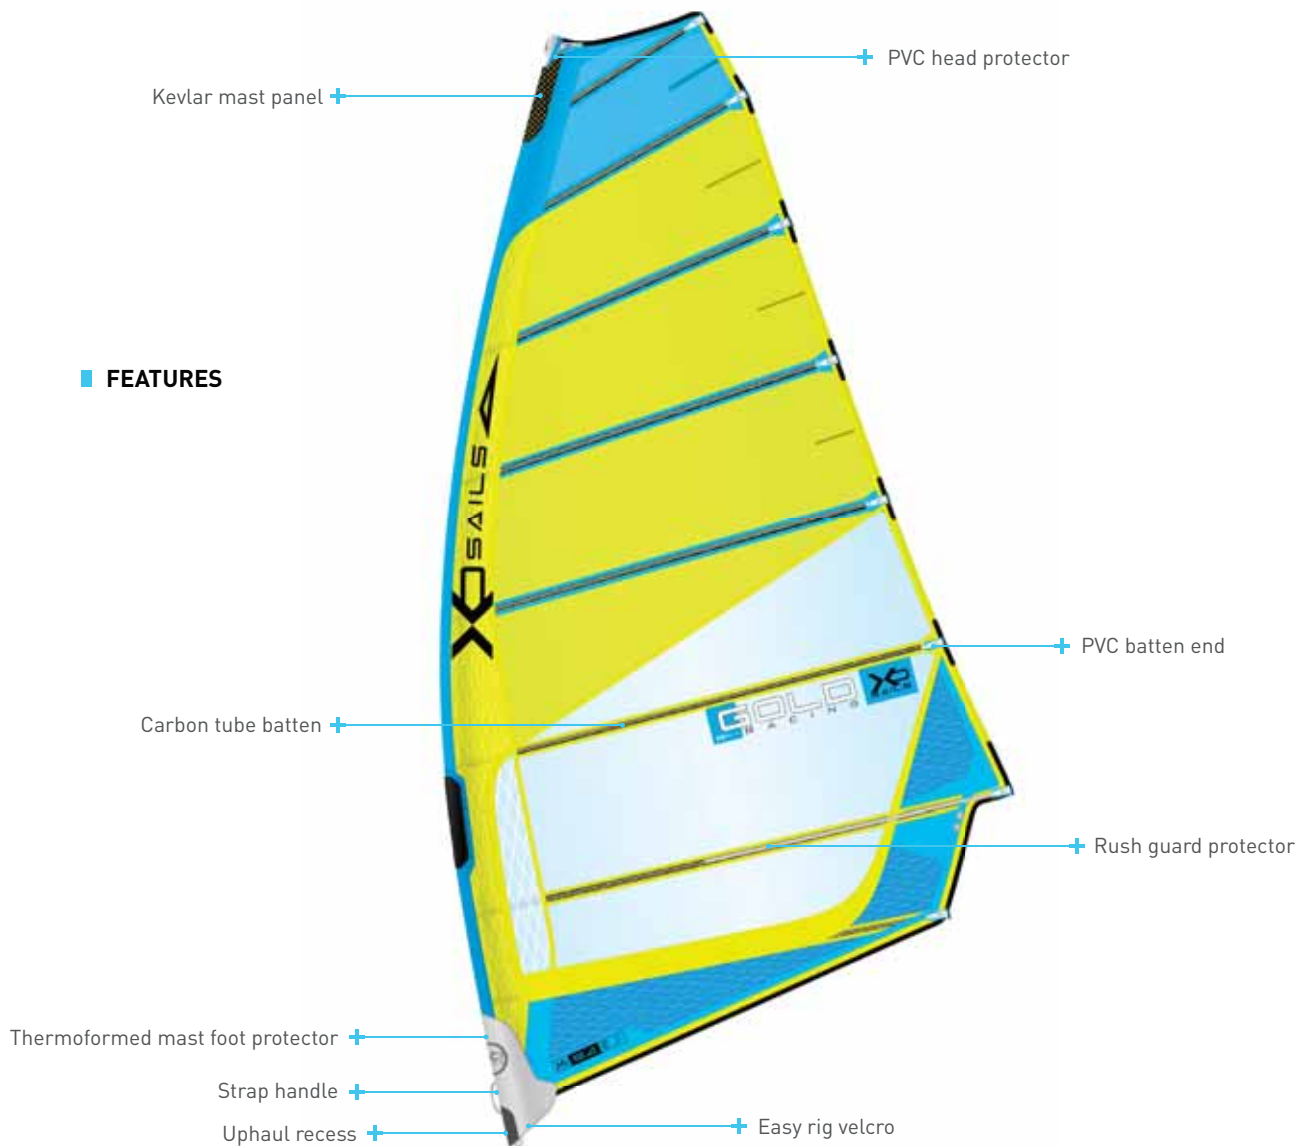

From 4.9 to 7.8 sqm , the GOLD sails can also be used on 80% or 100% RDM masts. An RDM Mast will increase the softness of the rig, often it more suitable for lightweight sailors.
