

SHARK

WAVE

3.7 | 4.0 | 4.2 | 4.5 | 4.7 | 5.0 | 5.3 | 5.7 | 6.2

PROGRAM

- Wave

CHARACTERISTICS

- Powerfull wave sail, suits any wave board and free wave boards
- Full grid sail, Extremely durable even in intensive use
- Moderate to powerfull power, depending on the mast (100% carbon mast delivers the most power)
- Really easy to handle in heavy condition
- 5 battens sail

EQUIPMENT

- Kevlar mast pannel to lock the shape
- Strap tensioner on the outhaul
- Head PVC protection
- PVC batten end protector
- PVC anti-rubbing strip on lower batten pocket
- Velcro scratch on mast protector for easy access
- Triple stainless steel down haul poolies
- Thermoform mast protector

CONSTRUCTION

- Full grid
- Kevlar mast panel & reinforcement

TEAM ADVICE

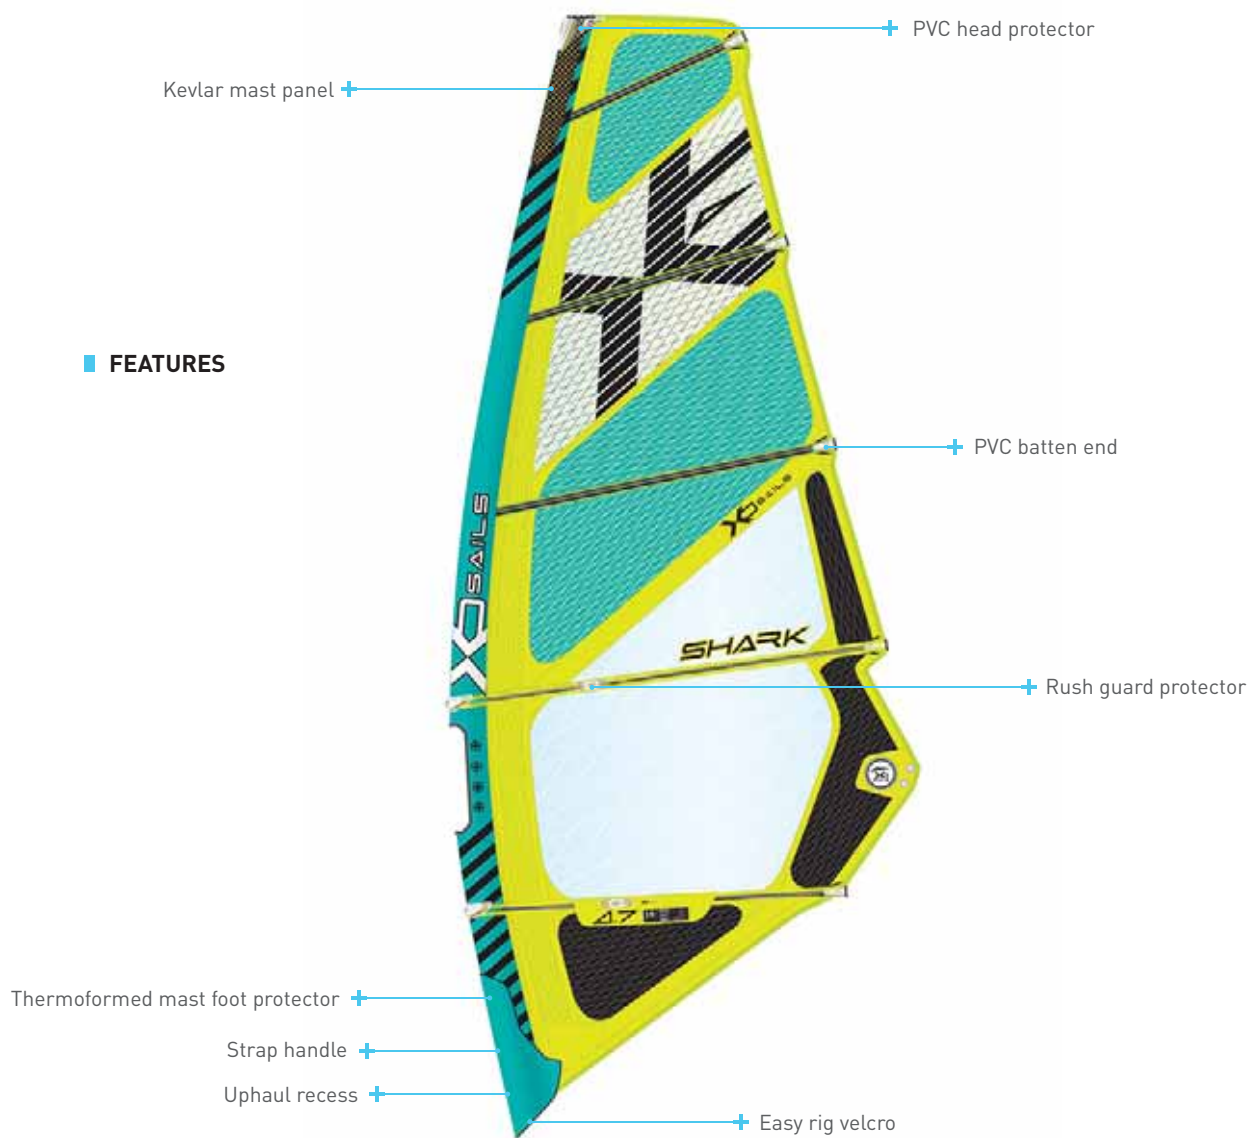

The SHARK has a fair amount of shape lock by different Kevlar reinforcement that makes it really stable either in jump or surf, The performances of the SHARK are outstanding, powerful but also one the easiest sail to use on the market, You can add extra power with 100% mast, with 80% carbon mast the sail become softer while keeping the draft locked forward
