

SILVER

SLALOM + FREERIDE SLALOM

5.5 | 6.0 | 6.5 | 7.1 | 7.8 | 8.4 | 9.0

PROGRAM

- Slalom, Freeride Slalom

CARACTERISTIC

- Freeride sail and Freeride slalom for any kind of wind
- Powerfull and easy in marginal conditions
- Low luft curve allowing fairly low tension on the downhaul
- Lower luft curve allows a wide compatibility to all kind of mast

EQUIPMENT

- Kevlar mast pannel to lock the shape
- Strap tensioner on the outhaul
- Head PVC protection
- PVC batten end protector
- PVC anti-rubbing strip on lower batten pocket
- Velcro scratch on mast protector for easy access
- Triple stainless steel down haul poolies
- Thermoform mast protector

CONSTRUCTION

- Monofilm sail
- Kevlar mast panel & reinforcement

X.O SAILS ADVISE

The Silver sails can also be used on RDM mast 100% and 80% from 5.5 to 7.8 From 5.5 to 7.8 an RDM or SDM mast with 100% carbon will make the sail more responsive and increase performance, 100% carbon mast will also lock the draft forward
